01. Graduate Workshop LL&M

03. Event was cancelled

04. SAARUS - Optimization of scrubber exhaust gas scrubbing technology to reduce environmentally harmful ship emissions
   Dr. Thorsten Streibel

05. Intriguing physical properties of colloidal nanocrystals with dimensionality and shape control
   Dr. Rostyslav Lesyuk

06. Characterization and Application of Hydrogels based on Polymerized Ionic Liquids
   Johanna Claus

08. Time-resolved Spectroscopy on van der Waals Heterostructures
   Michael Kempf

09. Ultrahigh Field MRI in Ophthalmology
   Prof. Oliver Stachs

10. Electron microscopy in the LL&M environment
    Kevin Oldenburg

11. Topic: Competence Centre °CALOR
    N.N.

12. Multi-scale models
    Dr. Yogesh Bansod

Location: SR 110, FoBau LLM and via Zoom

Starting time: 3 pm
