

# DEPARTMENTS MEETING LL&M

## 2021

**22.02.** Green Technology for Green Material

Dr. Dirk Hollmann

**26.03.** *Graduate Workshop LL&M*

**26.04.** *Still available*

**31.05.** What can quantum sensors contribute to your chemistry, biology and medical experiments?

Prof. Friedemann Reinhard

**28.06.** Introduction Innocent Meat

Patrick Nonnenmacher, Laura Gertenbach

**23.08.** AMMOTRACE - AMMunitiOn exploration by surface- and underwater-based laser mass spectrometric TRACing tEchnology

Dr. Christian Gehm

**27.09.** Towards a biological pacemaker – Bioprinting of three dimensional, functional constructs

Sophie Kussauer, Christian Polley

**25.10.** Observation of Exciton Dynamics with Fluorescence Imaging Microscopy

Chris Rehagen

**22.11.** Electron microscopy in the LL&M environment

Dr. Kevin Oldenburg

**13.12.** Programming of Life: Biotechnology that matters

Dr. Alf Spitschak

**Location:** via Zoom or

SR 110, FoBau LLM

**Starting time:** 3 pm
